# Epidemic: German and Austrian Mayors Under 60 Are'Suddenly and Unexpectedly' Dropping Dead

 Amy Mek  April 6, 2022  76 comments  4 min read

## **When did so many young and healthy middle-aged people, described as fit and sporty, drop dead before 2020?**

Since December 2020, many sudden and unexpected deaths of mayors under 60 years old have occurred in Germany and Austria. Questions are swirling about whether these elected officials were overwhelmed by job stress, or could there be another reason for so many “fit and healthy” politicians dying?

On December 12, 2020, 41-year-old CSU Mayor Dirk Rosenbauer collapsed during a municipal council meeting and later died in a hospital in Coburg. The headline read, “[At only 41 years old](#) – mayor from Bavaria collapses during council meeting – dead”.

Sadly, the headlines have been filled with similar cases for about two years. The names of Mayors being added to the list of unexpected and sudden deaths seems to be growing steadily.

The [“Freie Bremer” channel](#) on Telegram compiled a list of several such incidents, at least 15 known deaths in Germany and Austria in the period mentioned. However, the number of unreported cases could be higher.

**December. 12. 2020 41-year-old CSU Mayor Dirk Rosenbauer in Michelau, Germany. He leaves behind a wife and two children.**

In June 2020, the 50-year-old [German Mayor of Lenggries](#), Markus Landthaler, died unexpectedly.

**On September 15, 2021, the 47-year-old German Mayor of Limbach-Oberfrohna [Jesko Vogel died](#). He leaves behind a wife and two daughters. From 1991 to 2014, he was a player and captain of the first handball team at BSV Limbach.**

October 18, 2021, 57-year-old [Deputy Mayor of Kindberg, Peter Sattler, died suddenly on a hike.](#)

On October 21, 2021, the 60-year-old [Mayor Christian Ruh of Bodolz on Lake Constance died unexpectedly.](#)

On Saturday, October 24, 2021, [Burscheid's Mayor Stefan Caplan died](#)

October 28, 2021, 59-year-old [German Mayor Wolfgang Eckl](#) “unexpectedly” died.

November 27, 2021, Mayor [Jochim Ruppert died unexpectedly on Friday evening](#) at the age of 59.

unexpectedly.

On March 23, 2022, **Mayor Kristian W. Tangermann died unexpectedly.** The Mayor of the municipality of Lilienthal (Osterholz district) was only 45 years old.

**cerebral hemorrhage. The local politician leaves behind his wife and their six-week-old son.**

On March 29, 2022, [The incumbent Mayor of Waldshut-Tiengen](#), Joachim Baumert, died unexpectedly over the weekend at the age of 57.

On March 31, The third mayor of Coburg, **Thomas Nowak**, died suddenly and unexpectedly at the age of 53.

On April 1, 2022, the [First Mayor of Pfaffenhause](#)n and trained police officer Franz Renftle died at the age of 54.

When will authorities investigate these cases more closely? Of course, not all of these Mayors have necessarily died from the exact cause. However, when did so many young and healthy middle-aged people, described as healthy and sporty, drop dead before 2020?

Are the numbers of the Mayor's unexpectedly dying the same as in the past? Perhaps it could be? But shouldn't the authorities compare previous statistics and share them with the public? Looking the other way or downplaying the number of unexpected deaths of younger and seemingly healthy Mayors only adds to people's fears. Furthermore, it is creating even more rumors and "conspiracies." If there is, in fact, a problem, it should be of concern to the government. After all, it's government officials who are dropping dead in numbers.

In France they are legally characterized as suicides for insurance purposes so life insurance is not paid on these deaths. They chose to ingest a risky experimental substance.

To me these were suicides. How can you accept into your body an experimental so called vaccine or drug of which there is not enough research and even adequate information. It is stupidity of unimaginable proportions. So you avail yourself as a Guinea Pig and expect an insurance company to pay you insurance premiums? How naive.

Tens of thousands of people were participating in the clinical trials since March / April 2020. Those who received Placebo, were injected with the hot shot at the beginning of December 2020 before mass rollout started. I still do not think that middle aged Mayors participated in clinical trials but even that is not impossible. It is also possible that they succumbed to covid in those months in 2020.

Blood clots after the mRNA injections are no mystery. Let's stay in Germany. The professors Bhakdi and Burkhardt have clearly explained the mechanism. The mRNA damages the endothelium, the

inflammation e.g. in the heart (myocarditis). It is asking for blood clots. The mystery is why it is not immediately stopped. – I don't know what the mayors died from, but it must be investigated.

The best advice, which I already followed, is to eat as little processed food as possible, and only organic where possible. I know, for example, they've found graphene in Kellogg's cereals (specifically Special K) and also in some meat (beef, I think it was – I don't eat meat). Stem cells and other horrors have been found in others, and there were a lot of fizzy drinks (which I don't drink) and chewing gums on the list, from memory. So, please be careful what you consume. Also be very careful not to eat exceptionally cheap fast food, especially McDonalds.

Covid vaccine, Austria – wasn't able to be quickly found, but until 5 March, 776.397 doses of vaccines have been distributed. So, by my reckoning, the first 2 died of covid itself but all the rest could certainly have been due to vax. This is terrible – and especially for the poor families left behind. It's just so sad that so many people BLINDLY trust their governments, conventional doctors and other so-called "experts." People should always do their own research on everything, especially when it involved injecting anything directly into one's bloodstream; thus bypassing the immune system.
