

The Ukrainian Biolabs

Remember how “America’s Favorite Doctor,” Anthony Fauci, and the U.S., along with the Chinese military, funded the reckless “gain-of-function” lab experiments in Wuhan that gave rise to [COVID-19](#)?

Despite being signatories (along with [China, Russia, and 183 nations](#)) to the [Biological Weapons Convention of 1972](#) the U.S. military (under the Clinton, Bush, Obama, Trump, and Biden administrations) and its Big Pharma collaborators have been quietly funding since 1993, shortly after the dissolution of the Soviet Union in (with over \$100 million dollars) the “dual-use” (medical and military) weaponization of viruses and pathogens in 26 secretive biolabs in the Ukraine, just as the Russians did before them.

Among the deadly pathogens that the U.S. and Ukrainian scientists have been souping-up in these labs are plague, anthrax, tularemia, and cholera, making them more deadly and transmissible. Just as the Russian military moved into the Ukraine on Feb. 24, the U.S. (coincidentally, of course) removed the internet links showing that the Pentagon, Fauci, and the Eco-Health Alliance had been massively funding these biolabs. Unfortunately for the Pentagon, the COVID Club (Fauci and the Eco-Health Alliance), and the bi-partisan war hawks in the Congress (Republicans and Democrats alike) [the links were preserved](#).

But aren’t there supposed to be serious penalties (i.e. life in prison) for violating the BWC and engineering biological weapons? Not really. All you have to do is hide behind the excuse, especially if you are a Superpower, that the reckless “dual-use” research you are carrying out or funding is for “medical purposes only,” for example, producing new experimental “warp Speed” mRNA vaccines or pharmaceutical drugs before your competitors in the global biological arms race “beat you to the punch.”
