Evidence that sheds doubt on the official story regarding the Charlie Hebdo shootings.

I'm going to show you some footage of the Charlie Hebdo shootings which has been restricted or taken down from a number of websites. As you will see it contains no blood, gore or graphic violence. It does however punch a major hole in the official story.

You can draw your own conclusions.

The following clip was played on France 24. You'll notice in the middle that a section is edited

sidewalk just in front of him, but he is clearly not hit in the head as the corporate media **is claiming**.

Let's watch it again. Notice that the head isn't rocked by the blast as it would be if he was actually hit. Notice the plume of dust about a foot in front of him as the shot hits the ground. This is a AK-47. A hit to the head would splatter blood and brains all over the sidewalk.

Anyone who claims that this footage shows someone being hit in the head by a 7.62x39mm round either has no experience with guns, or is lying. This is a big bullet that does massive damage and makes a bloody mess. This officer was NOT killed by a gunshot to the head.

My first thought here was "ok, they missed". Just one problem. Every single mainstream media outlet is claiming that he was finished off with a shot to the head, and that's blatantly false.

So then you have to ask, what else are they lying about?

Funny thing is, these guys went to the trouble to put on ski masks, but for some reason, **according to the authorities**, they decided **to leave their identity cards laying in the get away car**. That's how the perpetrators were identified. Really? Come on.

The other funny thing, the suspects wound up dead, so case closed.

Now I'm not going to claim to know what really happened here, but we are being lied to, and lies like this mean trouble is coming.

This is exactly what i thought about the ski masks and the ids.....this has to be an operation purely to vilify French Muslims.and to validate new restrictions.

Ed Bear - what i'm sick of is guys like you who want to give the authorities every excuse to turn our countries into fucking police states. did you know that the police killed 9 french communists in Paris in 1962 and the year before nearly 200 algerians.....given the drive to bastardize Muslims generally it's not difficult to see how this could have been an operation to do just that!.....lets take body measurements of the so called two muslim culprits and the men in the video and see if they match!

Rui Manuel Areal Gonçalves On THIS clip, his head can be seen to jerk at the time of the shot. On the other the "jerk"or "shock" is NOT THERE.

Clearly, someone is lying. But who?

You guys are fucking retarded. A 7.62 fired at that close range will be a thru and thru. The head will not explode as the bullet is traveling too fast.

And the 4 dead at the deli? What's the conspiracy there?

The 12 dead at Charlies? What's the conspiracy there?

The ties to Yemen? The ties to the hatchet man in NY? What are the conspiracies there?

Maybe, just maybe, Muslims indeed are fucking terrorists bent on building a one-world caliphate and force Sharia into every government? how's that for a conspiracy?

And further, what's the conspiracy behind them claiming they have avenged Muhammad in that clipped? You going to claim that was edited in to further the "conspiracy"? Go back to your mom's basement.

The murderers were motivated by revenge. They picked a relatively easy target (but they had to do some research to find the gaffe in the first place...it was a 'secret office') and they knew, somehow, that there would be a management meeting on the Wednesday but their motive was vengeance - for the cartoons but mainly for all the shit in the Middle East. Stupid response for so many reasons. Lets the bigger state terrorists off the hook.
